Meet Your New  
Best Friend

Our Lab grown diamonds are carbon diamonds

that have been grown in a laboratory, much like flowers grown in a greenhouse. They are as real as diamonds pulled from the earth, have the same chemical composition, and they sparkle just as brilliantly. What's more? Our diamonds aren't harmful for the planet!

#### Look

Colorless, flawless, and ideal cut. Every time.

#### Cost

Transparent Pricing, Great value for money.

#### Environment

Made in the lab, no digging, no damage.

#### Quality

Hand crafted to be passed down for generations.

## Shapes Of Diamond

Round

Princess

Emerald

Asscher

Oval

Cushion

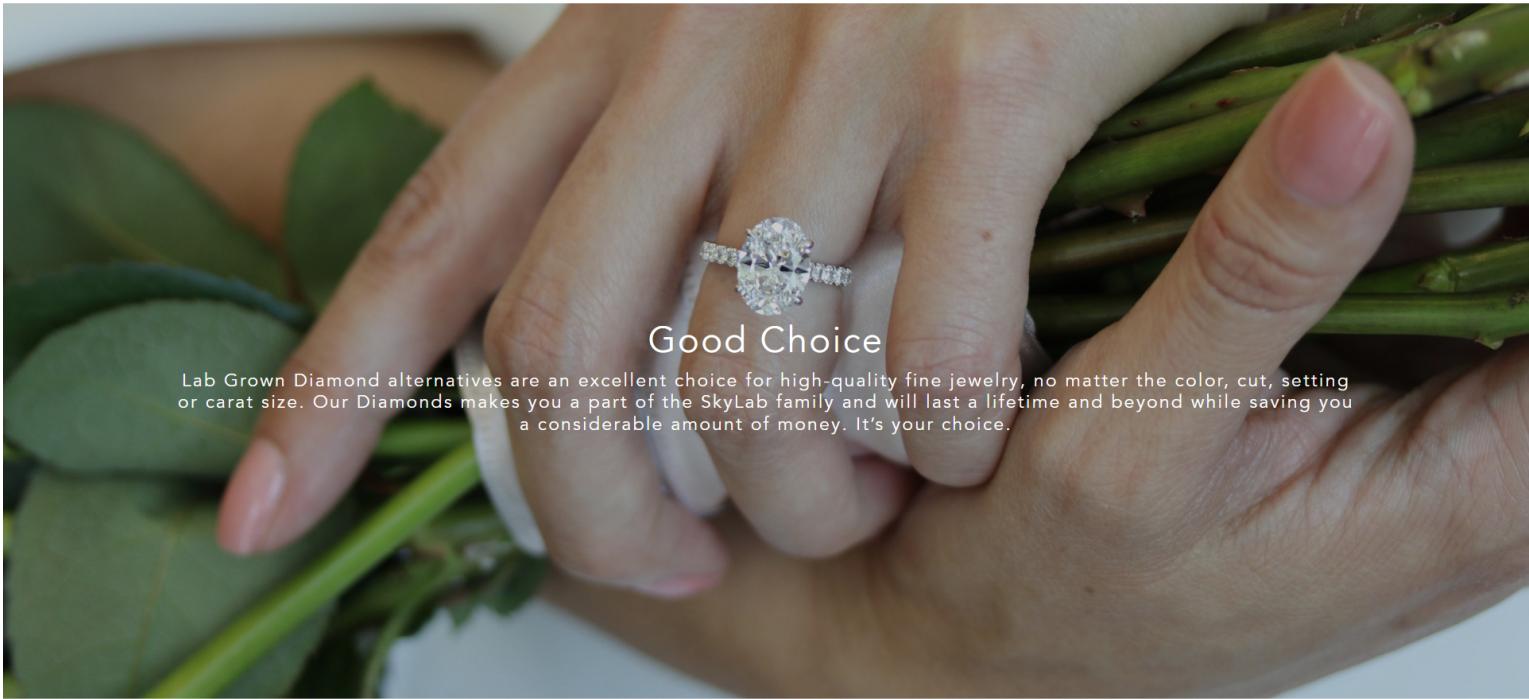

Pear

Heart

Marquise

## Good Choice

Lab Grown Diamond alternatives are an excellent choice for high-quality fine jewelry, no matter the color, cut, setting or carat size. Our Diamonds makes you a part of the SkyLab family and will last a lifetime and beyond while saving you a considerable amount of money. It's your choice.
